

Claims

What is claimed is:

1. A device of plastic heat sealed on the sides. The object is 2" by 2" in diameter. The object is a square piece of plastic to be used to fit over a pet's ID tags.
2. The object is durable plastic, chewable proof, and waterproof.
3. Device according to claim 1. Is made of clear plastic. That is folded over and heat sealed on both sides to create a pouch to hold the Pet's metal ID tags. Therefore it is a pouch with an open bottom to slide the pet's tags in and out if would like.
4. Device according to claim 1. Is heat sealed on sides to hold the metal tags in place on the pet's collar.
5. Device according to claim 1. Has a circular hole at the top of the 2" by 2" plastic to hook the metal circle to the pet's ID tags.
6. Device according to claim 1. Holds pet's ID tags into place so there is no noise inside of plastic.
